BT5M BLUETOOTH POWERED MONITOR

The BT5M is one of the most versatile speakers available today and will completely change how and where you listen to music. Like any Precision Acoustics it sounds absolutely sensational but even more impressive is its functionality and versatility: it's equipped with 2 optical, 1 Stereo RCA, and 1 mini jack input so it easily connects any device of virtually any age, includes Bluetooth to wirelessly send music easily, and even includes 2 USB 5v inputs to charge your devices. Connect it to your iPod, your TV, your computer, or simply put them on a bookshelf and control them via Bluetooth. An included remote gives you full control of what you hear so start thinking about where in your house you need to bring music today!
